Editor, Raymond W. Walters

Volume 1

APRIL, 1914

Number 3

THE ALUMNI BULLETIN will be sent free of cost to all Lehigh men for one year. The expense of publication will be met out of the current funds of the Alumni Association.

"We want every man who has ever been a student at Lehigh University to join the Alumni Association."—P. A. Lambert, Secretary-Treasurer, Bethlehem, Pa.

Readers of the BULLETIN are requested to notify the University of changes in address of themselves and of former fellow students so that the ALUMNI LIST may be as accurate as possible.

President's Letter to Alumni

The ALUMNI BULLETIN takes pleasure in presenting the following communication from President Drinker:

To the Alumni,
Gentlemen:

Owing to the steadily increasing attendance at our annual alumni luncheon, difficulty has arisen, markedly so last June, in accommodating in the quarters available all who desire to attend. It is a serious matter to provide comfortable accommodation for an unknown number of guests, for in spite of all the care that has been used yearly to obtain in advance the names of those purposing to attend, it is, of course, inevitable that a number

of men are able to arrange to come only at the last moment. Last year, owing to the pressure for place at the luncheon which could not be controlled, some classes were unable to occupy the seats that had been assigned for them. To overcome this difficulty it is proposed this year that the seating shall be by ticket, the seats to be assigned in order of application and the understanding to be that attendance is restricted to Lehigh men, including of course, the trustees, the teaching force, and their accompanying wives and daughters, and the members of the graduating class.

Very truly yours,

Henry S. Drinker,

President.

A Seat for Everyone

A seat at the luncheon for every Lehigh man who comes back for Alumni Day, Saturday, June 6, is assured by the ticket plan of the University, indicated in President Drinker's letter above. Table reservations by classes will be made according to tickets issued up to the last moment before the luncheon. If at all possible Alumni should indicate, by card or letter, their probable attendance. But those who cannot determine definitely in advance may obtain tickets at the Alumni Association meeting just before the luncheon.

Alumni Day Program

Alumni Day will be observed at Lehigh University on Saturday, June 6. The annual meeting of the Alumni Association, to be held in Drown Memorial Hall at 11 a.m., will include as usual the report of the Trustees of the University, the minutes of the Executive Committee, the report of the Secretary, the statement of the Treasurer, the report of the Athletic Committee, and the report of the General Committee on Alumni Endowment Fund. Then will come the election of officers for 1914-1915, the President, two Vice-Presidents, the Alumni Trustee and the Secretary and Treasurer. Associate members will also be elected. This meeting will be in charge of the President, Schuyler B. Knox.

The Alumni luncheon will follow at 1 p.m., when all Lehigh men (including Trustees and members of the teaching force) their wives and daughters, and members of the graduating class, are invited to be guests of the University, as stated in Dr. Drinker's letter.

After the luncheon, the buildings of the University, including the new Taylor gymnasium, will be open for inspection.

At 3:30 o'clock, Lafayette and Lehigh will play the third game of the baseball series on Taylor Field.

Meetings of the re-union classes will be held on Friday evening, June 5, and Saturday evening, June 6.

Plans of Alumni Day Committee

Those who came back for Alumni Day last year were practically unanimous in declaring that, for novelty, interest and what the boys in college call "pep", the 1913 program was the best ever carried through at Lehigh.

The Entertainment Committee for this June is headed by the same men who conceived and executed the last luncheon and "p-rade" features—Robert M. Bird, '02, and Moriz Bernstein, '96. Messrs. Bird and Bernstein have as a general idea for the coming program the scheme of contrast with the 1913 details. They have asked the BULLETIN to reinforce their request to Lehigh men everywhere to send them suggestions. It is the desire to

have the program for June 6 as representative as possible.

The Entertainment Committee would like to hear from the officers of re-union classes as to the personnel of re-union committees and as to plans for gatherings. Everybody with information about present class organization or with ideas for the Alumni Day celebration should write R. M. Bird, 220 Wall Street, Bethlehem, Pa., or Moriz Bernstein, 4344 Germantown Avenue, Philadelphia. An early start in stirring up attendance and enthusiasm will do much to insure the success of Alumni Day.

C. L. Taylor Donates Field House

The Board of Trustees of Lehigh University has announced a donation from Charles L. Taylor, of Pittsburgh, '76, for the construction and equipment of a field house to be located on Taylor Field. It will be annexed to the new gymnasium, Mr. Taylor's original splendid gift which is now completed.

During recent visits to the University to inspect progress upon the gymnasium and swimming pool, Mr. Taylor saw the need for additional facilities to accommodate participants in athletic contests. Being an ardent advocate of out-door exercise, he determined to supplement his gymnasium gift by a field house, and an offer to the Board of Trustees followed. The Board accepted with very hearty thanks.

Taylor field house will be a structure 75 feet by 41 feet, 2 stories and a basement, built of lime brick, to conform architecturally with the gymnasium. It will have quarters for the Lehigh and visiting athletic teams, with lockers and shower baths of the best type. There will be a physician's room and a trainer's room. A subway will lead from the field house to the athletic field beneath the concrete stand at the southwest corner of the stadium.

Work on the field house will be begun shortly and it will be ready for use in the football season next fall.

Formal Opening of Gymnasium

Present plans call for the formal opening of the new Taylor gymnasium

on Saturday, October 17, the date of the football game between Lehigh and the Carnegie Institute of Technology (of which Mr. Taylor is a Trustee). The program for the day will be announced later.

While the formal opening will not take place until next fall, the gymnasium is already in use by the Department of Physical Education. The layout of the building with a separate room for basketball, wrestling, etc., apart from the main gymnasium floor, has proved admirable. The game room was used during the wrestling season for the meets with Lafayette and the University of Pennsylvania.

It is likely that the new field house will be completed in time for opening with the gymnasium.

Spring Work on the Stadium

With the approach of favorable weather, work on the erection of the concrete stands of the University stadium will be resumed. It is expected that the eleven sections provided for by Alumni Clubs and individual gifts will be ready in ample time for the football season next fall.

Bach Festival at Lehigh

It is a manifestation of the broadened sphere of the new Lehigh that the University has become a musical mecca, a shrine to which hundreds of persons from sixteen states and two foreign countries journeyed last spring to hear the works of Johann Sebastian Bach.

Next month—the dates are Friday and Saturday, May 29 and 30—the ninth Bach Festival will be held in Packer Memorial Church on the University campus. The Bach Choir of more than 200 voices will sing the Mass in B Minor, the Magnificat and a Motet. The accompaniment will be played by members of the Philadelphia Orchestra. There will be four professional soloists.

This will be the third year that the Festivals have taken place at Lehigh. The University's connection with the Bach revival in the Bethlehems is far deeper than is indicated in the statement that the use of the chapel is ex-

tended for the renditions and that a number of students are singers in the Choir. In the first place Dr. J. Fred. Wolle, who founded the Bach Festivals in Bethlehem, was for nineteen years prior to 1906 organist of Packer Memorial Church and is remembered by a long line of alumni to whom his daily recitals at morning prayers furnished a standard of musical taste and enjoyment. When Dr. Wolle had spent six years as head of the Department of Music in the University of California, conducting two Bach Festivals there, it was at the suggestion and encouragement of a Trustee of Lehigh, Mr. Charles M. Schwab, that he returned to Bethlehem in 1912 to resume the Bach movement in the East. Mr. Schwab guaranteed one-half the expenses of the first revival and this generous aid he has continued.

As the Moravian Church in Bethlehem, the first home of the Festivals, was not available, the President and Board of Trustees of Lehigh University came forward with an offer of hospitality that solved the problem and made possible the success of the Bach revival. The renovated and beautified chapel was placed at the disposal of the Choir.

Moreover Dr. Drinker accepted election as President of the Bach Choir and added his energy to that of Mr. A. N. Cleaver, of the Board of Trustees, (a pillar of strength in the Bach Festival cause,) Mr. Warren A. Wilbur, and others. T. Edgar Shields, the present organist of the University, who was conductor of the Oratorio Society of the Bethlehems, 1907-1911, brought about the merging of that flourishing organization with the revived Bach Choir, and is now organist at the Festivals. Members of the Festival Publicity Committee include R. W. Walters, Registrar of the University, and Professor Barry MacNutt. Professors J. W. Richards and W. S. Franklin, of the University faculty, have been active as workers in the Choir interests.

Lehigh men interested in attending the Festival should address A. C. Huff, 57 South Main Street, Bethlehem, Pa., who is in charge of the sale of tickets and the arrangements for hotel accommodations.

Coppée Hall Now In Use

Coppée Hall, the remodelled old gymnasium, is now in use as the new home of the Arts and Science Department. The building was formally opened, on February 23, with exercises that included an historical summary by President Drinker, the address of the day by Professor Robert W. Blake, and a greeting from the University of Pennsylvania by Professor Charles L. Doolittle. During the exercises President Drinker read this telegram from Mrs. Coppée:

"Ross, Calif., Feb. 22, 1914.

"Dr. Henry S. Drinker,

"Lehigh University, South Bethlehem, Pa.

"Please express to the Trustees of Lehigh University my extreme appreciation of this lasting tribute to my husband's memory. I wish for Coppée Hall the successful fulfillment of its mission for all time. Though unable to be present I am with you in spirit.

"JULIA DEW. COPPÉE."

To this message President Drinker replied as follows:

"South Bethlehem, Pa., Feb. 23, 1914.

"Mrs. Henry Coppée,

"Ross, Calif.

"Your gracious and most welcome telegram was read at the Dedication Exercises of Coppée Hall, and all unitedly, Trustees, Faculty, Alumni, Students, and your many friends of the Bethlehems, send you their love and hearty greeting. Your granddaughter, Mrs. Gunsolus, was present.

"HENRY S. DRINKER."

Register and Alumni List

The University this month issues two publications—the 1914 REGISTER and the LIST OF ALUMNI AND STUDENTS. The Register gives a total enrollment of 705 students. This exceeds last year's registration by 35 and is 68 greater than in 1912. The geographical summary shows that Pennsylvania leads with 375 students; New Jersey is second with 72; Maryland, third, with 61; New York comes fourth with 53; and Massachusetts fifth with 20. Twenty-eight states are represented and 12 foreign countries; also Cuba and Porto Rico.

The ALUMNI LIST is the second since the bifurcate system of publication was adopted. In addition to the list of alumni formerly printed in the REGISTER, the new publication adds the names and addresses of all former students and of the present students, and there is a new department that includes the names of all present and former trustees, teachers, and admin-

istrative officers. The names in the ALUMNI LIST are presented alphabetically, and then graduates by classes are indicated, together with a geographical list, giving all former and present students according to states, cities or towns.

It will be a great help in making the ALUMNI LIST as complete and accurate as possible if all Lehigh men will report promptly to the University office any change in address.

Lehigh Men in the Limelight

The "Journal of the Franklin Institute" for April contains a notice that the Franklin Institute will recommend the award of the John Scott Legacy Medal and Premium to Jesse W. Reno, E.M., '83, of New York, N. Y., for his Inclined Elevator or Escalator.

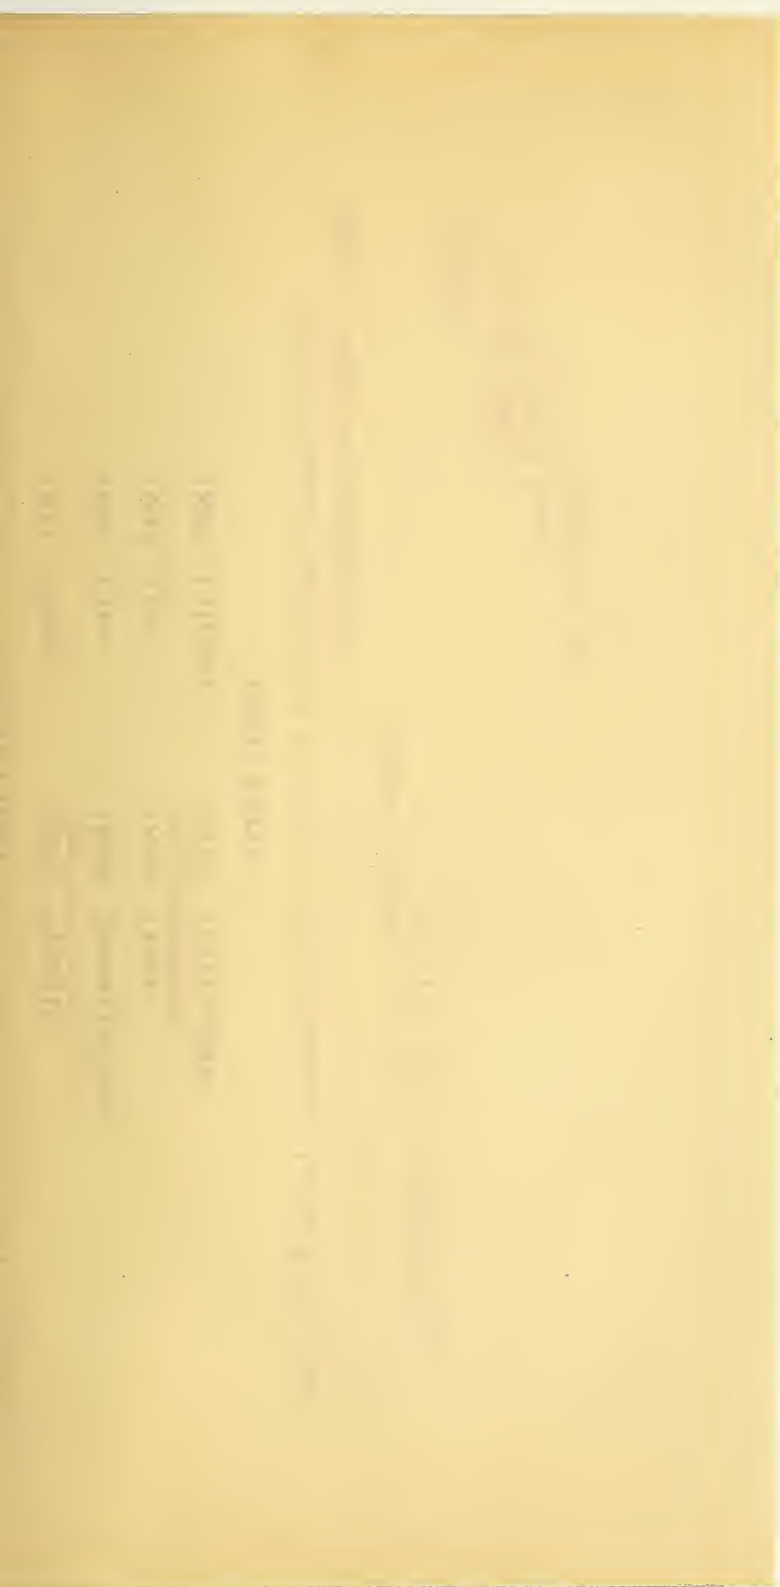

Recent work of Richard Harding Davis, '86, includes an article in the March "Scribner's" on "Breaking into the Movies" and a short story, "The Boy Scout," in the March "Metropolitan."

The New York "Dramatic Mirror" of April 1 contained, under the heading of its department, "Prominent Critics," an article on Paul M. Paine, '91, of the Syracuse "Post-Standard," upon whom the University conferred the honorary degree of Master of Arts last June.

"Unwritten Interviews" and "The Reluctant Appendix," products of the pen of Edwin Lefevre, '92, appeared in recent issues of the "Saturday Evening Post."

The Croes Medal of the American Institute of Civil Engineers for 1914 has been awarded to Benjamin F. Cresson, jr., '94, of New York City, for his paper contributed to the Society, entitled "The Problem of the Lower West Side Manhattan Water Front of the Port of New York."

Clarence E. Clewell, E.E., '05, instructor in the Sheffield Scientific School, Yale University, has been appointed Chairman of the Committee on Public Lectures of the Illuminating Engineering Society. There are to be five sub-committees covering a campaign the Society will conduct over the entire United States to educate the public in regard to illumination.

REUNIONS.

1913, First.

1911, Three.

1894, Twenty.

1909, Five.

1889, Twenty-five.

1904, Ten.

1884, Thirty.

1899, Fifteen.

1879, Thirty-five.

1874, Forty.

Oh! you reunion classes, don't be so tight with information. Let us know your plans. Maybe we can help you.

At your service,

ALUMNI DAY COMMITTEE.

Address

R. M. BIRD,
220 Wall Street,
Bethlehem, Pa.

ALUMNI DAY, SATURDAY, JUNE 6, 1914.

Bethlehem, Pa., April 15, 1914.

FELLOW LEHIGH MAN:

On your trail again—writing you, wanting you, urging you to come back to good old Lehigh this June.

We all want things to go with a **BANG**. **NOW** is the time for you to supply the powder. Your Committee will set it off.

Our chief kick is that you, individually and as Reunion Classes, don't take the trouble to supply us with **BRAINS**—we want **IDEAS**—your ideas, suggestions on which to make

JUNE 6th

the biggest day ever.

Ever resourceful Bernstein, '96, is going to handle the "**STUNTS**" again. If you want to get in touch with him address him 37 South 19th Street, Philadelphia, Pa.

Dr. Drinker has solved the luncheon problem (see enclosed Bulletin). A seat at luncheon for EVERYBODY. Two seats apiece for 1903 to make up for last year. Note that "everybody" means every Lehigh man who writes for tribute

Heck, '08, in Asia Minor

Lewis Heck, B.A., '08, of the American Consular Service, has returned to Constantinople from Kara-Hissar, Asia Minor, where he conducted an investigation into the murder of a young American missionary named Holbrook, who was stabbed last September while asleep in a garden at Endenes, near Kara-Hissar. An account of the investigation was contained in a letter recently received by President Drinker in which Mr. Heck refers to the subsequent trial then in progress as likely to last at least six weeks longer. The widespread attention the Holbrook case attracted in European and American newspapers has brought forward prominently Mr. Heck's work in the Consular Service.

In his letter to Dr. Drinker, Mr. Heck tells of two trips to Kara-Hissar—a 600-mile journey by carriage and horseback in addition to travel by sea and railroad. Kara-Hissar is described as a town "built against a rock that is surmounted by a well-preserved castle that pre-dates the Osmanli Turks. It was an important place in the old Byzantine kingdom of Trebizond."

In this "out-of-the-way corner of Turkey," Mr. Heck was "the only foreigner within 75 miles." "The region is wonderfully rich in minerals—coal, iron, silver, zinc, etc. . . . Back in the '70s and '80s, an English company had extensive workings at a silver mine some 20 miles away, but the fall in the price of silver in the '90s forced it to cease operations. The region can never develop until it has good roads and railways, an axiom that is true of all of Asia Minor except its western part. When once a number of railways have been built and they have brought work and a greater degree of prosperity to the population, I think the most serious phases of the Armenian problem will settle themselves."

Small, '09, Writes From China

In a letter to Dr. Drinker, Alexander G. Small, M.E., '09, who since graduation has been in teaching work in China, reports his transference from Canton to Nanking, one of the four

main educational centers of the country, which will be the seat of the University of Nanking, a union institution of the Presbyterians, Methodists, Disciples of Christ, and Baptists. Mr. Small will be in charge of the erection of the new buildings and in connection with this is making a study of building materials in the vicinity of Nanking.

Old Chinese and Indian edifices are being inspected by the architect, Mr. Fellows, of Chicago, so that the new buildings of the University, making a horse-shoe shaped court on the campus, will conform with the best Chinese exterior architecture, with modern interior arrangements and facilities.

The city of Nanking has suffered greatly during the Tai Ping rebellion and the last two revolutions, writes Mr. Small, and "one need not look far to see pitiful sights." An effective scheme for helping the poor without pauperizing them is being worked out by a Mr. Bailey who has purchased from the government about 1000 acres of mountain land outside Nanking. There he has planted thousands of fruit trees and a half million yellow pines from seedlings. In this nursery and in road building, more than 500 poor natives are given employment, an instance of practical, helpful forestry.

Class of 1900.—Frederick A. Groff, E.E., formerly with Gibbs & Hill, New York, is now Assistant Division Engineer for McHenry & Murray, at New Rochelle, N. Y.

Class of 1901.—The most elaborate thesis ever presented at Lehigh was submitted by CharlesENZIAN, C.E., of Wilkes-Barre, who received the degree of Master of Science at the University last June. It contained two hundred and fifty pages and about fifty photographs on "Physical and Geological Difficulties of Anthracite Mining with Special Reference to Surface Support in the Northern or Wyoming Basin." This represented some results of Mr.ENZIAN's work as a Mining Engineer in the United States Bureau of Mines.

Ke-Ching S. Yen, C.E., has been made Managing Director of the Canton-Hankow Railway, with office at Hankow, China.

* Indicates Game Away.

Baseball

The Lehigh team played good ball in the opening games of the season, defeating Manhattan, 9 to 1, on Taylor field on April 4, and nosing out, 7 to 6, the strong Catholic University nine at Washington, D. C., on April 6. The rest of the southern trip (the first since 1907) saw a slump that registered severe defeats from Maryland Agricultural College, Washington and Lee (two games) and the Navy.

Despite this, a creditable record for the remainder of the season is looked for when the team finds itself. The material is the best for many years.

Lacrosse

The condition of Taylor field, due to bad weather, was so unfavorable that the Lehigh lacrosse twelve went to Annapolis on March 25 with practically none of the preliminary practice as a team necessary for good play. Matched against the Navy, whose players were in more advanced form, Lehigh lost 5 to 1 in a stubborn fairly well-played contest.

Lehigh gave evidence of spirit and class by "coming back" in the game with Cornell, on April 2. The score was a 1 to 1 tie. On April 11, Lehigh beat the Crescent A. C., in Brooklyn, 2 to 0.

Track Prospects

The schedule of spring sports, as printed elsewhere in this issue, shows that only one of the meets will be held at South Bethlehem. This is due to the fact that the work on the lower section of Taylor field has spoiled the old track while the new track and the 220 straight-away on the upper level are not yet completed.

Despite the handicaps of a lack of a cinder path for practice, the Lehigh track men are training enthusiastically and a successful season is looked for. The new coach is Thomas Connors, who has had a wide experience in coaching teams of the Boston Athletic Association and New England schools. There are in college a good number of last year's team, which won all dual meets including the Lafayette meet. In addition to good sprinters and distance runners, there are promising candidates for the field events.

Tennis

The large number of tennis courts at the University, including those given by Mr. Charles M. Schwab, enables many candidates to try for the University Tennis Team. Seven colleges will be played during the present season.

Basketball Victories

A tie with Swarthmore for leadership of the Eastern Division of the Pennsylvania Collegiate Basketball League was established by Lehigh in the final game of the season, played in South Bethlehem on February 27. No deciding contest took place.

The season was one of the most successful ever gone through, which—in the light of Lehigh's high basketball standards since the game was introduced—means much. Of fourteen games played, only two were lost. One of these was to Yale at New Haven, 27 to 13, when Lehigh played with a re-arranged team. The other was a 20 to 19 defeat from Swarthmore. In the second game with the Quakers, Lehigh won decisively.

The string of Brown and White victories included two games with Lafayette, one with Penn State, one with Albright, one with Muhlenberg, and six others. Lehigh scored 603 points against a total of 271 scored by all opponents.

This record was especially notable in view of the loss in mid-season, just before the first Lafayette game, of Captain Crichton and Johnson, the center, who had scholastic troubles.

The players of the season were H. A. Crichton, Price, White, Fred Green, Johnson, Berg, Kirkpatrick, K. S. Crichton, Geyer, Fisher, Loucks and Brewster.

Review of Wrestling Season

The Lehigh Wrestling Team closed a creditable season by winning third place in the championship meet of the Intercollegiate Wrestling Association, held on March 27-28, at the University of Pennsylvania, Philadelphia. Cornell was first and the University of Pennsylvania, second, with the Lehigh matmen giving both of them a vigorous tussle for honors. Lehigh, with 12 points in the meet, came out ahead of Princeton and Columbia. The newspapers spoke in praise of the good work of Thomas, Sawtelle and Bailey.

The season's victories included a triumph over Lafayette, 31½-2½, and a "win" from Columbia, 18-15. Lehigh tied with Pennsylvania, 16½-16½, and lost to Cornell, 13-17. The State College team defeated Lehigh in a de-

cisive but well-contested meet. The poorest showing the team made was against the Navy when the midshipmen won in all classes.

1915 Intercollegiates at Lehigh

The Intercollegiate Wrestling Association, at a recent meeting in Philadelphia, accepted Lehigh's invitation to hold the 1915 intercollegiate meet in Taylor gymnasium next March. Vance, '15, was elected Secretary and Treasurer of the Association.

Lehigh Wireless Club Active

The Department of Electrical Engineering at Lehigh, assisted by students, is erecting an experimental wireless receiving station in Sayre Park, well up on South Mountain. This will be used in connection with a sending and receiving station at the foot of the mountain.

Interest in wireless telegraphy is keen among the University's Electrical Engineering students. They have a Wireless Club of twenty members, including a number of skilled licensed operators. Valuable experimental work may be accomplished, it is believed, if the activities of the club can be financed.

Dog Saved Students' Lives

Fire of unknown origin completely destroyed the Delta Phi Fraternity House at 701 Delaware Avenue, Fountain Hill, early on the morning of February 12. The barking of a bulldog awakened the steward, who in turn aroused the twelve students of the chapter. The boys, who managed to escape from the burning house with a few clothes, say they owe their lives to the dog. The dog was burned to death. Accommodations for the students have been provided by the University in the Alte Brauerei dormitory.

Class of 1913.—L. G. Matthews, B.S. in Chemistry, set sail from San Francisco, on February 11, on the steamship "Empress of China" for Shanghai. Mr. Matthews will be located at that city as assistant manager of the Lubricating Department of the North China Department of the Standard Oil Company of New York.

From the Campus

The Lehigh University Rifle Club, a vigorous young organization that had a successful season, elected the following officers for the next year: President, A. F. Benson, '16; Vice-President, Miles Kresge, '16; Secretary, Robert Latham, '17; Treasurer, Dr. E. A. Sallers, of the Faculty; Range Captain, R. Latham. Linderman, '14, and Weber, '14, won government bronze medals for their shooting.

The victory of the crack relay team of the University over Carlisle at Washington last month was featured in the "Brooklyn Eagle" in large headlines as follows: "Lehigh defeats Carlisle. Indians Lose One-mile Relay Race at Georgetown University Meet."

Along with his photograph which is to be hung in the Alumni Room of Drown Hall, a former member of the University teaching staff sent this note to Vice-President Emery:

"You honor me greatly in your request for a counterfeited presentment of my physiognomy, which I send herewith, to be hung with the other contemporary and extinct zoological specimens in your pedagogical menagerie."

In accordance with a suggestion made at a recent college meeting, many students, individually or collectively, have presented Lehigh pennants and banners to their former preparatory schools and high schools, to be hung in the school gymnasiums or reception rooms.

The Inter-Fraternity Bowling League has completed a successful season. Delta Upsilon won first honors, while Theta Xi and Sigma Nu tied for second place. All games were bowled in Drown Memorial Hall.

By request of student body and faculty representatives, Mr. Warren A. Wilbur repeated an address on "The Currency Act," originally delivered before the Politics Club, as a college lecture on March 13.

S. P. Taylor, of Altoona, Pa., has been elected Editor-in-Chief of the "Brown and White," and E. P. Humphrey, of Wilkes-Barre, Pa., has been made Business Manager. The new

Editor-in-Chief of "The Burr" is L. H. Geyer, of New York City, with H. I. Fair, of Brooklyn, N. Y., as Business Manager.

Alumni desiring tickets for the performance of the Mustard and Cheese Dramatic Association, in the Grand Opera House, on Monday evening, June 8, may secure them by addressing the President's office. The price will be \$1.50 each.

With the Faculty

President Drinker returned to the University on March 31 after a few weeks of rest in Bermuda. He had taken no vacation since his trip of two weeks to Panama about a year ago. Dr. Drinker was preceded by Mrs. Drinker, who left on January 28 in a party with Pittsburgh friends. Among these were Dr. A. A. Hammerschlag, Sc.D., Honorary, '07, Director of the Carnegie Institute of Technology, and Mrs. Hammerschlag.

Dr. William C. Thayer, who has been Professor of English at Lehigh for 19 years, was granted leave of absence by the Board of Trustees for the session of 1913-1914, and left town October 1 for the South, after assisting in the opening of the academic year and arranging for the continuation of the work of his department. After spending a few months in Asheville, and the western part of North Carolina, Professor Thayer moved his family to Mt. Pleasant, S. C., a suburb of Charleston. Professor Thayer has used this opportunity to make a canvass of both North and South Carolina in a systematic effort to bring the schools of the Carolinas into closer touch with Lehigh University. Professor Thayer and family are expected back, at 59 East Market Street, Bethlehem, about June 1.

The January number of the "Journal of the Franklin Institute" contains an article on "Some Phenomena of Fluid Motion—The Curved Flight of a Baseball" by Professor Franklin.

The Macmillan Company has just published a new English edition of Gatterman's "Practical Methods of Organic Chemistry," translated from the German by Professors Schober and Babasinian, of Lehigh.

NEWS FROM THE CLUBS

Philadelphia Lehigh Club

The April meeting of the Philadelphia Lehigh Club was held in the Board Room of the University Club, 1510 Walnut Street, on Wednesday evening, April 8.

Preliminary announcement was made by Moriz Bernstein, '96, of arrangements for the "great and only shad dinner" which will probably take place on May 22. Secretary Bernstein will furnish definite notice as to time and place in the Philadelphia Lehigh Club "News."

Alumni attending the March meeting of the Club were rewarded by hearing an illuminating talk by Professor R. W. Blake, of the Department of Arts and Science at the University. Professor Blake described the work being done in the Arts and Science courses which are now quartered in Coppée Hall, the remodeled building which was formerly the old gymnasium.

The discussion that followed was joined in by the following: R. S. Perry, '88, J. W. DeMoyer, '90, A. T. Bruegel, '88, G. Hood, '83, W. R. Walters, '09, and John Griffen, '11.

The following are extracts from an article by "Rowcroft" printed in the March issue of the "News":

"The place was Kugler's Restaurant, 1412 Chestnut Street. The night was Friday, January thirtieth. The occasion was the Annual Dinner and Smoker of the Philadelphia Lehigh Club. * * *

"Every sixty seconds of the entire evening was devoted to something worth while from a clubman's viewpoint, and the program so well arranged by Secretary Bernstein moved forward like a well-oiled machine, and held the attention of all throughout. * * *

"The first event of interest was an illustrated talk by R. W. Walters, '07, Registrar of Lehigh University, on the improvements which have taken place at Lehigh recently, with especial reference to the new stadium now rapidly nearing completion.

"Dr. 'Harry' Drinker, beloved of all Lehigh men, followed with a message brimful of inspiration and enthusiasm

for Lehigh alumni. President Drinker closed as follows:

"What brings me here tonight principally is to tell you of the new stadium, and to solicit your help in subscribing towards the cost of erecting it. Sections of it have already been subscribed for by the Northeastern Pennsylvania, Pittsburgh and New York Clubs, and it is only fitting that your club should have an opportunity to contribute its portion. The actual cost of a section is \$3200.00, and it will serve as a lasting memorial of the Philadelphia Lehigh Club, to the undergraduates who will use the stadium in the years to come. I leave the matter entirely in your hands, and have every confidence that it will receive from you the same earnest support you have shown in days gone by."

"Dr. Drinker's words were vigorously applauded, and created much enthusiasm.

"Other speakers followed. Professor H. R. Reiter, Director of Physical Education at Lehigh, gave us a stirring talk on athletics

"Dr. Henry Price, '70, expressed his pleasure at being again at home 'among his Philadelphia friends.' His words centered around the beneficial influence which the new gymnasium will exert on the entire college body, evidencing the marked contrast between the ideal arrangements which exist today, and what Lehigh formerly possessed, and the pride which Lehigh feels in having them today.

"Mr. Morris L. Cooke, '95, Director of Public Works of the City of Philadelphia, told of the new and wider path which the engineer of today is cutting for himself; and how he is coming to perceive the full relationship he bears to society in general. Mr. S. C. Long, General Manager of the Pennsylvania Railroad, and Vice-President of the Philadelphia Lafayette Club, also addressed us. * * *

"Pittsburgh, with Mr. R. T. Morrow, '83, and New York, with Mr. D. A. Usina, '91, were well represented. * *

"Schuyler B. Knox, '93, President of the Alumni Association, offered a word or two of greeting to the club and related some anecdotes of Lehigh's past in a reminiscent vein.

"We had almost forgotten about that election. Here are the results:

President, 'Dick' Morris, '89; Vice-Presidents, 'Jack' Griffen, '11, and E. T. Murphy, '03; Secretary and Treasurer, Moriz Bernstein, '96. The club greatly regretted the absence of 'Charley' Taylor, '76, who is quite ill and unable to be with us. It was duly ordered that the Club wire to him their feelings with regards to his unavoidable absence, which was accordingly done."

Maryland Lehigh Club

The Maryland Lehigh Club will conclude a very satisfactory year with a meeting to be held in the Hotel Rennert on Friday evening, April 17. This last regular session of the season will include a talk by Vice-President Emery and a showing of stereopticon views, exterior and interior, of the completed Taylor gymnasium by R. W. Walters, Registrar of the University.

A good sized delegation of alumni from Baltimore and vicinity will return to the University for Alumni Day in June.

The Maryland Club had a good old Lehigh evening on February 20 when Dr. Drinker came down and reported on how things are going back at the University on South Mountain. The attendance was good and the spirit was the kind that made glad the heart of Dr. Drinker. In addition to the President's talk there were speeches by J. H. Pennington, '97, President of the Maryland Club, H. W. Riley, '10, and others.

Southern Lehigh Club

Notice will be given by Ellwood Johnson, '07, Secretary and Treasurer, as to the spring smoker of the Southern Lehigh Club to be held in Washington about May 1.

The twenty-second annual dinner, held at the University Club in Washington, on February 7, was a great success. The speakers were: Dr. Drinker; Colonel Chester Harding, Engineer Commissioner of the District of Columbia; Captain Mark Brooke, Assistant Engineer Commissioner; Dr. Willard S. Small, Principal of the Eastern High School, Washington; Mr. Frank C. Daniel, Principal of the McKinley Manual Training School, Wash-

ington, and Mr. William F. Gude, President of the Washington Chamber of Commerce. Mr. A. E. Phillips, of the Class of '90, now Superintendent of the Department of Sewers of Washington, was toastmaster.

The speeches were inspiring and the gentlemen from the government commission and from the schools at Washington were most appreciative and complimentary in their references to Lehigh and particularly to the share that Lehigh men are taking in the management of government and district engineering interests at Washington.

Dr. Drinker, in his address, particularly called attention to what Alumni are doing at various points for the completion of the stadium and his suggestions appeared to meet with appreciation by the Southern men present.

The officers for 1914 are: President, W. A. Draper, '07; Vice-President, H. C. Eddy, '92; Secretary and Treasurer, Ellwood Johnson, '07. The banquet committee consisted of Ellwood Johnson, '07, chairman; A. E. Phillips, '90; J. H. Galliher, '07; H. J. Jackson, '08; G. R. Roberts, '08.

Lehigh Club of Greater New York

An informal dinner and smoker of the Lehigh University Club of Greater New York will be held at the Machinery Club, 50 Church Street, on Friday evening, April 17.

Howard W. DuBois, '92, of Philadelphia, will give his talk on "Hunting Big Game with the Camera in British Columbia," illustrated with moving pictures and stereopticon views.

If the necessary support is forthcoming, Lehigh men in New York and vicinity will have the pleasure of seeing a performance by the Mustard and Cheese Dramatic Association of the University. It is planned to present a musical comedy, "Make Me Laugh," in the ball room of the Hotel Plaza on Saturday evening, May 2. The Mustard and Cheese, which this spring has one of the best companies in many years, includes 14 students in the regular cast, 16 in the dancing chorus, and 8 in the glee chorus. They will sing music written by C. L. Packard, '14, and other students. The show will be followed by a dance. The price of

tickets is \$2 a seat, and 500 seats must be sold to cover expenses. The committee in charge includes George R. Enscoe, Secretary of the Alumni Club of Greater New York, 21 Park Row, New York City, and H. G. Harvey, '09.

The annual dinner of the Lehigh University Club of Greater New York was held in the Hotel Astor, on Saturday evening, February 21, with Major General Wood, Chief of Staff of the United States Army, as the principal guest of honor. Besides General Wood, guests and speakers were President Drinker, Professor Mansfield Merriman, George W. Alger, and R. B. Honeyman, '88. General Wood gave a most enlightening and impressive talk on the subject of "Military Preparedness," dwelling particularly upon the Students' Military Instruction Camps as a factor in providing an efficient reserve force.

Doctor Drinker, who is President of the Society of the National Reserve Corps, composed of students of these camps, told of his interest in the movement and his earnest approval of it. Dr. Drinker declared that "it would be an enormous error to consider or look on these camps as training schools intended simply to develop a measure of military efficiency." He cited the endorsement of the camp "as a most important adjunct to the educational system of the United States," made in a statement by the Advisory Committee of the Society of the National Reserve Corps.

Dr. Merriman, former Professor of Civil Engineering at Lehigh and now a consulting engineer, was enthusiastically received by the alumni. He gave a brief speech in which he recalled old days at the University and told of his continued interest and loyalty.

About one hundred and twenty-five persons were present at the dinner.

Detailed accounts of the affair were prominently printed in the Sunday issues of the New York "Herald," "Sun," "Times," "American," and "Tribune," as well as in papers of other cities.

Chicago Lehigh Club

In response to the request of the Editor of the ALUMNI BULLETIN for news, H. W. Kern, '92, President

of the Chicago Lehigh Club, sent the following:

The Lehigh Club, or more properly the Great Lehigh Nebula of Chicago, is obviously in a formative state, all in violent action, going around in circles, but gradually and irresistibly tending toward a common center and ponderable mass. When the corpuscles within this little atom decide to rearrange themselves, you have this warning—Look out for our radioactivity.

The idea is—everything is shifting—and from month to month our men are being transferred to better and more responsible berths. For example, our very efficient Secretary, Lowry, '11, has been billeted on the populace of Indianapolis to their gain.

Then there is C. L. Keller, '93. There is a story I must tell of his recent activities. A local tradition in the Island of Ceylon has it that Ceylon was the original site of the Garden of Eden. When Adam and Eve were about to seek other and more congenial lodgings, they were escorted from the Island over a narrow neck of land which connected Ceylon with the mainland of what is now India. Upon safely reaching the other side this narrow strip of land was destroyed and it was impossible for them ever to return. The little points of rock above the water, called "Adam's Bridge" by the natives, remained an impassable and disconnected strip until Keller, '93, threw a Rolling Lift Bridge of the Scherzer type across the gap. Our first parents may now return to the Garden, where a welcome awaits them.

W. A. Lydon, '86, our sailor member, has launched his new yacht, a modern Dreadnought, of some 269 feet and some odd inches, upon whose spotless decks we have hopes of foregathering this summer, and dallying with the festive cup of tea and dreaming of far-off Japan, while we lazily swing at anchor.

C. L. Jenness, '85, is busily engaged in supplying pipe fittings to the needy in that line, and in his off moments he is striving to perfect a coupling for the exclusive use of the Lehigh Club so that after they once come together only a severe wrench will separate them. Here's hoping.

You see we have some very promising material here in Chicago ready and anxious to welcome Doctor Drinker, whose visit two years ago is fresh in our minds, whose presence welds the last link and joins us once more to Lehigh and her memories.

Lehigh Men in Lansford

With Ernest E. Finn, '13, in charge, a movement is on foot to organize a Lansford Section of the Northeastern Pennsylvania Lehigh Club. An encouraging amount of interest is reported. Alumni in Lansford and vicinity will be notified as to meetings by Mr. Finn.

New Lehigh Club Formed

The Lehigh Club of Newcastle and Youngstown was organized at the Hotel Ohio, Youngstown, on Saturday evening, March 21. The following are the charter members: Eber W. Cook, '12, W. J. Maguire, '12, J. Fritz, '13, L. T. Mart, '13, G. A. Saeger, '12, O. L. J. Graham, '11, R. J. Hauk, '12, and O. H. Schroedl, '11.

The Intermountain Lehigh Club

The Intermountain Lehigh Club held an informal luncheon at the University Club, Salt Lake City, Utah, on Tuesday evening, March 24. There was a good attendance. The meeting was in charge of M. S. Hanauer, A.C., '86, President; James H. Wolfe, M.E., '05, Secretary.

Members of the Intermountain Club will attend a meeting of the American Institute of Mining Engineers to be held in Salt Lake City next July.

Joseph H. Siegel, '96, and Mrs. Siegel have returned from a trip to the east.

A new member of the Intermountain Club is Stanley G. Prickett, '14, who is employed with the Hercules Powder Company at its new plant at Garfield, Utah.

John Hampton Slate, M.E., '11, joined the Salt Lake City delegation of Lehigh men a month ago. Formerly employed as Master Mechanic with the Northern Colorado Coal Company at Coalmont, Col., he is now working for the Sullivan Machine Company, Kearns Building, Salt Lake City.

M. S. Hanauer, Union Assay Office, Salt Lake City, has been elected President of the Glenco Union Mines Company at Park City, Utah.

Julian U. Siegel, '11, has been made Vice-President of the same company.

Pittsburgh Lehigh Club

Plans are being discussed for a Pittsburgh Lehigh Club meeting in June, although no definite date has been set.

The usual good sized delegation from Pittsburgh will go east for the Alumni Day exercises at the University.

Lehigh men in Pittsburgh comprised a large proportion of the guests present at an informal dinner tendered Taylor Allderdice, '83, at the University Club on February 28. The "party" was given by H. W. Eisenhart, '03, and P. P. Reese, '03, on the occasion of Mr. Allderdice's birthday anniversary.

Pittsburgh alumni were particularly pleased with the recent announcement that "Charley" Taylor, '76, has added to his original splendid gift of a new gymnasium the further donation of a well equipped field house.

The Lehigh Home Club

The proximity of the Lehigh Home Club to the University permits its members to attend the University exercises with a minimum of inconvenience. Home Club members will therefore turn out en masse for the events of Alumni Day on June 6.

The Home Club was honored when the football "L" was awarded by the Athletic Committee to Samuel T. Harleman, M.E., '01, Secretary of the Club, in recognition of his services to Lehigh's athletics.

Lehigh Club of Northern New York

G. M. Baker, Secretary and Treasurer of the Lehigh Club of Northern New York, reports that "we expect to be well represented at the Alumni Day exercises at the University in June."

Members of the Northern New York Club will have an important part in the meeting of the Pittsfield section of the American Institute of Electrical Engineers to be held on May 21. J. J. Frank, E.E., '94, is Chairman of this section. T. S. Eden, E.E., '96, will pre-

sent a paper, "Relative Merits of Gamma Delta Connections of Generators." L. F. Blume, E.E., '05, will deliver a paper on "Stress in Three-Phase Operation."

For the past three years much interest has been shown in Schenectady in a bowling league made up of college men. Lehigh has always finished near the top in these contests. In the season just closed teams representing sixteen colleges competed. Wisconsin led with an average score of 831; Lehigh was sixth with a score of 740.

Lehigh Club of New England

The officers of the Lehigh Club of New England are planning a meeting of the Club to be held in Boston sometime in May. The exact date will be announced later in notices to members. All Lehigh men in New England who can arrange to attend this meeting are asked to send their names and addresses to Louis A. Olney, 118 Riverside Street, Lowell, Mass.

The officers of the New England Lehigh Club are: President, William D. Hartshorne, C.E., '74; Secretary, L. A. Olney, A.C., '96, M.S., '08.

Lehigh Night in Wilmington

A number of Lehigh men in Wilmington, Delaware, were present at "Lehigh University Night" at the Young Men's Christian Association in that city on March 21. This was the fifth and last of a series conducted by the High School Club of the Christian Association, the other colleges represented being Yale, Princeton, University of Pennsylvania and Delaware College. On Lehigh night an illustrated talk descriptive of the University's campus, activities and buildings was given by R. W. Walters, the Registrar.

Northeastern Pennsylvania L. U. Club

Five well attended enthusiastic gatherings, including four smokers and the annual dinner, make up the season's activity of the Northeastern Lehigh Club.

The Club won distinction for the prompt and tangible way in which its enthusiasm took form—the first donation of a concrete section of the University stadium to be made by any Lehigh Alumni organization.

The spring smoker was notable because of being held at Hazleton instead of at Scranton or Wilkes-Barre as usual. There was an attendance of about thirty Lehigh men. The toastmaster of the evening was the newly elected president of the Northeastern Club, W. C. Anderson, '94. Speeches were made by Vice-President Emery, of the University, A. B. Jessup, '95, H. A. Butler, '83, E. H. Lawall, '82, G. E. Shepherd, '94, Charles Dorrance, '07, and W. R. Bray, '10.

The committee appointed to collect funds for the stadium section, under the management of E. H. Lawall, reported steady progress and its expectation that the full amount will be raised in the very near future.

A Dutch lunch was served at this smoker. Dorrance, '07, was chairman of the committee on arrangements for this meeting.

F. J. Deemer, jr., '08, the Secretary-Treasurer of the Northeastern Club, reports that there will likely be a good crowd at the University for Alumni Day.

Southern Anthracite Lehigh Club

A new member in Lehigh's Alumni family is the Southern Anthracite Lehigh Club. The aim of the Club's officers is to "enroll every alumnus in Carbon, Schuylkill, and Northampton Counties."

The Club had its first annual dinner in Pottsville on Tuesday evening, April 14, when President Drinker, Professor Stewart and Mr. Walters, the Registrar, represented the University. H. A. Atkins, '91, the chairman of the dinner committee, was toastmaster.

Lehigh and Bethlehem Prep.

Of the seventy guests in attendance at the eighth annual banquet of the Bethlehem Preparatory School on February 7, forty were Lehigh men. Speeches were made by Headmaster H. A. Foering, B.S., '90; Bishop Talbot and W. A. Wilbur, of the University Board of Trustees; T. K. Smith, B.A., '03, and A. P. S. Bellis, M.E., '09.

The B. P. S. Alumni Association had a meeting before the banquet and elected these officers: President, A. P. S. Bellis, M.E., '09; First Vice-Presi-

dent, Dr. R. J. Yost, '92; Second Vice-President, S. A. Wuchter, '15; Third Vice-President, H. A. Crichton, '15; Secretary and Treasurer, F. A. Johnson, '05.

MARRIED

Stobaues—Wackenhuth

Miss Clara Wackenhuth, a daughter of Mr. and Mrs. Frederick C. Wackenhuth, and William Carl Stobaues, Ch.E., '10, were married in Newark, N. J., on January 28. Mr. Stobaues is employed with the Gamon Meter Company in Newark.

Tate—Kinsey

Albert Austin Tate, '16, of Boston, Mass., and Miss Florence Heebner Kinsey, daughter of Mrs. Catherine Kinsey, South Bethlehem, were married at Easton, on February 9, Rev. E. R. Allen officiating. Mr. Tate was a star tackle on Lehigh's 1912 football team. He is now in business with his father, Ferris Tate, who is identified with the Everett Ice Company in Boston.

Pocock—Flack

C. W. W. H. Pocock, '05, was married to Miss Gwendoline Sutton Flack, in Lima, Peru, on February 3. Mr. Pocock is a mining engineer connected with the Cerro de Pasco Mining Co., Cerro de Pasco, Peru.

Hunter—Macartney

The ALUMNI BULLETIN has received word of the marriage of William T. G. Hunter, '10, to Miss Florence Macartney. The wedding took place at Fort Covington, New York, on March 4. Mr. Hunter is employed in the Traders' National Bank, Scranton, Pa.

Thomas—March

Miss Katherine March, daughter of Professor and Mrs. F. A. March, of Easton, and Stanley J. Thomas, M.S., 1913, Instructor in Biology at Lehigh, were married in the chapel of Lafayette College on April 7.

Hafner—Taylor

Dr. Amos O. Taylor, of Altoona, Pa., has announced the marriage of his daughter, Agnes Paul, to Arthur Henry Hafner, M.E., '08, on Monday, April 13. Mr. and Mrs. Hafner will be at home, after June 1, at 2610 Beale

Avenue, Altoona. Mr. Hafner is in the Motive Power Department of the Pennsylvania Railroad.

Jamieson—Wintersteen

Miss Isabel A. Wintersteen, daughter of W. S. Wintersteen, of Bethlehem, and Andrew W. Jamieson, El.Met., '13, were married in Trinity Episcopal Church, Bethlehem, on April 14. Mr. and Mrs. Jamieson left for Douglas, Ariz., where Mr. Jamieson is in charge of the erection of a smelter plant.

OBITUARY

Dr. Joseph M. O'Malley, '89

Dr. Joseph M. O'Malley, a widely known physician of Philadelphia, and chief of staff of St. Agnes' Hospital, died on March 3.

Doctor O'Malley, who had been in poor health for several years, contracted a severe cold while making a visit to a patient during a storm. Congestion of the kidneys followed, and his condition became so serious that he was removed from his home, 228 South Broad Street, to the hospital. He died shortly after a visit from his wife, and before his family, which had been summoned hastily, could reach his bedside.

Doctor O'Malley, who was 49 years old, was born in Pittston, Pa. He was the son of William and Catherine Ward O'Malley, and his early education was received in that town. Later he graduated from Harry Hillman Academy, at Wilkes-Barre, and matriculated at Lehigh University, where he was graduated in the chemical course with the Class of 1889. Following this he took a medical course at Georgetown University, receiving his degree in 1893. He was the author of numerous medical treatises and was recognized as an authority along the lines on which he specialized. He was a member of the Philadelphia County Medical Society, the American Medical Association, the Philadelphia Pathological Society, the Pediatric Society and the Philadelphia Medical Club.

In 1902 he married Miss Susan Grugan, of Philadelphia. He is survived by his wife and five children, and three brothers, one of whom is Frank Ward O'Malley, of the New York "Sun."

S. W. Grubb, '93

Samuel Wilbur Grubb, '93, of Philadelphia, died of typhoid pneumonia after a two weeks' illness, and was buried on February 1. He was a draftsman in the Department of City Transit of the city of Philadelphia. He is survived by his widow, Mrs. Frances G. Grubb. In a letter to the ALUMNI BULLETIN about Mr. Grubb, Mr. T. Nellson Spencer, assistant engineer in the Department of City Transit, wrote: "His kindly nature and general good cheer had endeared him to us all."

J. F. Campbell, '94

James Fairman Campbell, who died at Oak Lane, Philadelphia, last November 26, was born in Davenport, Iowa, on May 26, 1872, a son of the late Judge J. D. Campbell, formerly General Counsel for the Philadelphia and Reading Railway. He entered Lehigh University with the Class of 1894, taking the course in Mining Engineering. He was a member of the Sigma Phi Fraternity. Upon leaving Lehigh he studied law and was a member of the Philadelphia Bar for about 18 years. He was engaged chiefly in railroad work, representing the Delaware, Lackawanna and Western Railroad and the Philadelphia and Reading Railway in Philadelphia. He was also frequently engaged in Admiralty Law. He is survived by his widow, formerly Miss Plunkett, of Toronto, and two children.

George W. Barager, '00

George William Barager, M.E., '00, General Manager of Pardee Bros. & Co., Latimer Mines, Pa., is dead. An extended notice will be given in the next issue of the BULLETIN.

Paul Kline, '00

Paul Kline, who died in Pittsburgh on October 23, was born at Bedford, Pa., on December 19, 1878, a son of Mr. and Mrs. H. O. Kline, of 307 Fourth Avenue, Pittsburgh. He entered Lehigh in September, 1896, from Mercersburg Academy, taking the course in Civil Engineering. At the time of his death he was Special Agent of the National Fire Insurance Company. Death was due to pneumonia.

M. T. Saldana, E.E., '07

The following appreciation appeared in the "South Bethlehem Globe" of February 2:

To the Editor of "The Globe."

Manuel Teofilo Saldana, whose brilliant young life was so suddenly and ruthlessly snuffed out last Wednesday morning, son of Dr. J. M. Saldana, of San Juan, Porto Rico, was born at Yacuboy, Porto Rico, 1886. He came to South Jersey Institute in 1900 to attend schools in this country, having won a government competitive scholarship in Porto Rico. In 1903 he entered Lehigh University where he was graduated with the degree of E.E. in 1907. Then followed a three year course with the Denver Gas and Electric Company from whence he went to the Mexican Gas Co. in Mexico City. His efficient service there in both the producing and distributing part of the work was rewarded by increasing responsibility and remuneration, but the uncertainty of affairs in Mexico and consideration for the health of his family caused him to leave there and come here last spring.

During his student days at Lehigh, Mr. Saldana was secretary of the local branch of the Society of Electrical Engineers and president of the Spanish-American Club. He was a man of broad education, being conversant with French, Spanish and English literature, and had a command of the English language excelled by few English-speaking people. From many acquaintances he made some intimate friends to whom his memory is dear. We will always remember him as a man of culture and refinement, in every sense a perfect gentleman.

Mr. Saldana was married in 1908, to Miss Rhoda Cutsler, of South Bethlehem, and leaves three children. As a husband he was kind and considerate; as a father loving and loved. It has been and will be a great pleasure to have known him and a sad bereavement to lose his smiles, quick wit, and brotherly love. It is the least of all service to pay this tribute to his memory.

JOS. B. REYNOLDS,
Asst. Prof. Math. and Astr., L. U., 1907.

R. Morris Gummere

R. Morris Gummere, Secretary of the Board of Trustees of Lehigh University, died at his home in South Bethlehem, on Monday, February 16. He was stricken with apoplexy while waiting for a train in the Union Station that morning.

Mr. Gummere was born in Philadelphia on February 8, 1846. He was graduated from Haverford College in 1866. For the last thirty years he has been intimately connected with Lehigh. From 1884 up to this year he was Secretary of the Executive Committee and of the Board of Trustees; he was Treasurer of the University from 1901 to 1914, Assistant Secretary of the Board of Trustees from 1909 to

1910, and Secretary of the Board since 1910. Funeral services were held in the Pro-Cathedral of the Nativity.

Professor Arthur J. Frith

The Bulletin of the Society for the Promotion of Engineering Education contained a notice, in its January issue, of the death, in Chicago, last November, of Arthur J. Frith, Assistant Professor of Mechanical Engineering at the Armour Institute of Technology. Professor Frith was Instructor in Mechanical Engineering in 1874-1875.

Charles W. Smith

Charles W. Smith, who was Physical Director at Lehigh for some years, died on March 28, in Allentown, Pa., where he was in Y. M. C. A. work. Mr. Smith was 49 years old. His widow and six children survive.

Joseph B. Baker, '79

Joseph B. Baker, jr., '73, Superintendent of the Pennsylvania Railroad, 32nd Street and Powelton Avenue, Philadelphia, died on February 3.

Rev. E. W. Snyder

Rev. Elbert W. Snyder, '78, a retired Episcopalian clergyman and former chaplain of Lehigh University, died at his home in Elmhurst, a suburb of New York, on February 3. He was 73 years old.

PERSONALS

Class of 1892.—H. W. DuBois, of Philadelphia, gave an address at the meeting of the American Institute of Mining Engineers, held in New York in February.

Class of 1893.—Noel W. Smith, C.E., is Superintendent of the Middle Division of the Pennsylvania Railroad, with headquarters at Altoona.

Class of 1903.—Dyer Smith, M.E., has associated himself with Samuel Owen Edmonds, of 32 Liberty Street, New York City, for the practice of patent and trade-mark law, and has removed his office from the Woolworth Building to 32 Liberty Street, New York. Mr. Smith delivered a college

lecture at Lehigh on January 9, on the subject, "Patents—Some Essential Facts for the Engineer."

Thomas Kile Smith, B.A., has returned from Germany where he spent the past two years as an exchange professor under the Carnegie Foundation. Mr. Smith taught in the Gymnasium at Koenigsburg, and studied at the same time in the University of Koenigsburg, from which he received the degree of Doctor of Philosophy.

Class of 1905.—J. H. Wolfe, M.E., LL.B., of Salt Lake City, had an article on "Loan Sharks and the People" in a recent issue of the magazine, "The Utah Survey."

Class of 1906.—H. R. Thayer, M.S., '06, Assistant Professor of Structural Engineering in the Carnegie Institute of Technology, has just placed in the hands of the D. Van Nostrand Co., of New York, the manuscript for the second volume of his work on "Structural Design." It is expected that it will appear about May 15. The first volume, "Elements of Structural Design," published about two years ago, has been very favorably received and is now in its second edition.

Class of 1907.—Ralph J. Gilmore, B.A., M.A., 1910, who was an instructor at Cornell, has been appointed Head of the Department of Biology at Huron College, South Dakota.

Edward S. Foster, E.E., has resigned as Superintendent of Buildings and Grounds at Tome Institute, to become head of the Department of Insulating Materials of the Packard Electric Company.

Class of 1909.—J. B. Campbell, E.E., has been made manager of the Marianna Electric Company at Marianna, Arkansas.

Chester H. Struble is managing editor of the widely known "new thought" magazine, the "Nautilus," published at Holyoke, Mass.

Wilburt R. Walters, B.A., Instructor in Mathematics in the Cheltenham High School at Elkins Park, Philadelphia, is secretary of the Suburban School Men's Club. Mr. Walters read a paper at the March meeting held at Abington.
